EDUCATION

National University of Computer and Emerging Sciences (FAST) — Lahore, Pakistan
Bachelors of Science in Computer Science — *2021 - 2025*

EXPERIENCE

Associate Software Engineer — October 2025 – January 2026
WAMO Labs
- Developed scalable web applications using Next.js with SSR and dynamic routing.
- Automated deployments using CI/CD pipelines for faster, reliable releases.
- Containerized applications with Docker for consistent dev and production environments.

Associate Software Engineer — July 2025 – September 2026
Six Logics
- Developed responsive Next.js applications with enhanced performance and SEO.
- Utilized server-side rendering (SSR) and implemented NextAuth for secure authentication.

Software Development Intern — June 2024 – August 2024
IBEX
- Built 2+ responsive web applications with Next.js, ensuring modern UI/UX.
- Implemented secure REST API integrations with NextAuth for authentication.
- Improved app performance, accelerated page load times, and deployed projects on Vercel.

Web Development Intern — June 2023 – August 2023
NETSOL
- Developed 3+ scalable web applications using MERN Stack.
- Developed REST APIs and handled CRUD operations with secure authentication (JWT).
- Designed MongoDB collections and optimized backend performance.
- Followed Agile methodology and collaborated via Git/GitHub.

PROJECTS

Multi-Vendor E-Commerce SaaS | *Next.js, TypeScript, MongoDb, Stripe, Server Actions, Cloudinary*
- Built a multi-tenant e-commerce SaaS using Next.js, MongoDB, Stripe, and role-based authentication.
- Implemented secure order processing, inventory management, and product image uploads with Server Actions.
- Developed store/admin dashboards with analytics, moderation tools, and dynamic storefront customization.

Real-Time Collaborative Document Editor | *Next.js, MongoDB, Prisma, Socket.io, NextAuth, Tailwind CSS*
- Built a full-stack SaaS editor with real-time multi-user collaboration and autosave using WebSockets.
- Implemented authentication, role-based access, document sharing, and version history.
- Developed scalable APIs with Next.js and a responsive UI using Tailwind CSS with MongoDB and Prisma.

Job Application & Tracking System | *Node.js, Express.js, MongoDB, React, JWT, Docker, GitHub Actions*
- Developed a full-stack ATS platform with role-based authentication (Recruiter & Candidate).
- Built secure REST APIs with JWT authentication and application workflow management.
- Designed recruiter dashboard with application funnel tracking and analytics.
- Containerized the application and implemented CI/CD for automated builds and deployment readines.

TECHNICAL SKILLS

Languages: C/C++, JavaScript, TypeScript, Python, GoLang
Frameworks: React.js, Next.js, Node.js, Express.js, Gin
Tools & Libraries: Git/GitHub, Docker, CI/CD, Redux, Tailwind CSS, Postman, JWT
Databases: MongoDB, MySQL, GORM
Technologies: RESTful APIs, Websockets

INTERESTS/HOBBIES

Sports, Cricket, BasketBall, Reading Articles Related to AI.
